Executive Headteacher
Rachel Weldon NPQH BA (Hons) PGCE

Dear Parents and Carers

Some of our staff have attended specific food hygiene courses which have set down some rules and regulations about food sent in from home. We are now bound to follow these as our practice and must adhere to food preparation guidelines so that children do not become ill.

We are restricted in terms of what we can reheat.

Chilled food only may be sent in a microwavable dish for reheating.

We cannot re-heat any rice or egg dishes

No pastry based items can be reheated

No tinned/processed meat or fish can be reheated (e.g. tuna, corned beef)

I am sorry if this causes you an inconvenience but, whereas you can do what you like with reheating food at home, we have to follow these guidelines in school.

If anyone has a particular issue to do with special diets please phone and we can discuss it.

Many thanks for your co-operation

With best wishes

Fiona Proffitt
Head of School
St Francis School
